## MISSION-DRIVEN SOLUTIONS FOR GOVERNMENT CHALLENGES

Federal agencies face rapidly evolving technology landscapes, critical workforce shortages, and increasing cybersecurity threats. Success requires trusted partners who deliver top-tier talent, seamless IT solutions, and security-focused services—efficiently and at scale. That's where SOAL Technologies comes in. With deep expertise in IT consulting, staffing and enterprise solutions, we align the right talent and technology to empower government agencies in mission-critical operations.

CORE CAPABILITIES

- Strategic Workforce Solutions – Providing pre-vetted, high-caliber professionals in IT, cybersecurity and engineering.
- Cybersecurity & Infrastructure – Safeguarding government systems with NIST, FedRAMP and CMMC-compliant security.
- Enterprise IT & Software Development – Designing secure, scalable and cloud-ready solutions tailored to agency needs.
- Management & Process Optimization – Streamlining operations, automating workflows and enhancing efficiency.

WHAT MAKES US DIFFERENT?

- Beyond Algorithms—Real Connections: Every hire is carefully vetted to align with agency missions, not just job descriptions.
- Agility in Government Environments: Fast, scalable solutions built for mission-driven projects.
- Security-First Mindset: Strict adherence to federal compliance ensures data integrity and system resilience.
- Proven Success in Public & Private Sectors: Supporting state agencies, prime vendors and major enterprise clients.
- Our AI-powered three-tiered vetting system ensures top-quality talent through smart resume screening, technical evaluations, and cultural interviews.

THREE-TIERED VETTING

01 Selecting The Best Resumes To Best Fit Your Hiring Requirement

02 In-house recruiters vet candidates via technical assessment tools & in-depth interviews

03 Technical & Cultural Interviews

CERTIFICATIONS

HUB — Statewide Historically Underutilized Business Program | Certified MBE Minority Business Enterprise | DBE Certified | SBE Certified
